OTHER DOCUMENTS (AD47)

Under the Designs Act, 2000

Title of the Article: **EDGE-AI SIGN LANGUAGE TRANSLATION APPARATUS**

1. **Brief Description of the Article**: The present design relates to a standalone, portable Edge-AI sign language translation apparatus comprising an ergonomic integrated housing, an optical sensor and illumination pod, a front interactive display screen for dynamic 3D sign demonstrations and subtitles, directional acoustic ports, rear thermal exhaust vents, and a stable beveled pedestal base for hands-free counter and desktop operation.

2. **Statement of Novelty:** The novelty of the present design resides in the shape, configuration, and surface ornamentation of the "EDGE-AI SIGN LANGUAGE TRANSLATION APPARATUS" as illustrated in the accompanying representation sheets.

3. **Disclaimer:** No claim is made for any mechanical, functional, optical, or operational features of the article. Protection is sought solely for the aesthetic features of the design as shown in the representations.
